# **Windhoek Electric develops solar air conditioner**

## Overview

---

Where can I buy a solar power system in Windhoek?

SWH, Photovoltaic, SHS, Energy Efficient Appliances; wind. Renewable. Ohangwena. Tel: 220743, Fax: 255660, No. 2 Ruhr St, Northern Industrial Area, P. O. Box 24749 Windhoek. SWH, Photovoltaics, SHS, EE appliances, torches, lanterns, chargers. Tel: 061 271590, Fax: 061 271591, 1264 Goudsnip St. Hochland Park, Windhoek.

How does a solar air conditioner work?

A solar air conditioner combines solar electricity and air conditioning. In simple words, it takes energy from the Sun and uses it to power your AC to cool your space! A solar panel is a device that captures the power of the Sun. It converts the Sun rays into electrical energy. This energy can then be used directly or stored in a battery.

Can AC air conditioners run with solar power?

For AC air conditioners to run with solar power, you need a device known as an inverter, converting the DC from the solar panels into AC. The inverter is an integral part of such a setup. Moreover, the solar powered air conditioner then uses up the energy stored in a battery after passing through the inverter.

How much does it cost to install a solar-powered air conditioner?

Installation costs of solar-powered air conditioners can be a bit varied. The exact amount depends on the number of air conditioners, the number of solar panels required, and a few other variables. Solar-powered air conditioners can cost \$2000 before installation while around \$5000 including installation.
