Zhongya solar Curtain Wall Customization Company

Overview

What is a Rexi curtain wall?

The aluminum frame is typically infilled with glass, which provides an architecturally pleasing building, as well as benefits such as daylighting. REXI has a long and reputable history beginning as a curtain wall manufacturer in the 2005 to a company today with operations in China and different countries around the world.

What is a glass curtain wall?

The aluminum frame is typically infilled with glass, which provides an architecturally pleasing building, as well as benefits such as daylighting. The aluminium glass curtain wall are typically designed with extruded aluminum framing members, although the first curtain walls were made with steel frames.

What is an aluminium glass curtain wall?

The aluminium glass curtain wall are typically designed with extruded aluminum framing members, although the first curtain walls were made with steel frames. The aluminum frame is typically infilled with glass, which provides an architecturally pleasing building, as well as benefits such as daylighting.

How can Rexi improve curtain wall thermal performance?

Together with virtual trials and testing, engineering and real world testing, REXI can develop a facade system to meet any buildings requirements. Overall curtain wall thermal performance is a function of the glazing infill panel, the frame, construction behind opaque (spandrel and column cover) areas, and the perimeter details.
